

KING COUNTY INTERNATIONAL AIRPORT INCIDENT REPORT

INCIDENT:

Statement

DATE OCCURRED 05-06-87

TIME OCCURRED 3:30 PM

DATE REPORTED 05-07-87

TIME REPORTED 5:30 PM

LOCATION(S) OF OCCURRENCE:

George Town Steam Plant oil storage tank

REPORTED BY:

Mr. Nelson Ragle

PHONE NO(S):

383-4916 (24 Hrs)

SUMMARY:

I was contacted by a Mr. Nelson Ragle of Aero Services out of Tacoma, Wa. He stated that his business has been contracted by Seattle City Light to remove the bunker oil from the large storage tank on the east side of the George Town steam plant. He said that starting tonight there will be some one at that site on a 24 hour basis. He has asked that the shop gate be left open so his people will have access to and from the area. At this time the oil is being heated so that it can be pumped from the tank. Mr Nelson said that starting Monday there will be trucks removing the oil around the clock. Mr. Nelson said that it may take as long as 3 weeks to remove all the oil. We will need to monitor Rosso's nursery more closely during this time. Mr. Nelson was asked to contact Airport Administration and inform them of this operation.
